

Check-In via our key box

If you **arrive outside of our regular opening hours**, you have to check-in via our key box.

Please contact us **before** your arrival and you will receive your 4-digit personal PIN code with which you will receive your key from the key box.

The key box is located at the backyard of Hotel Wanner, next to the back entrance:

After entering your personal PIN code in the number field of the key box, you will receive your bunch of keys including 2 keys. One key opens the back entrance, the second key is for your room. You will find your room number on the key fob.
